Place Values

By Aanchal Kansal

Place Value – The place value of a digit in a number is according to its place.

For example - Let us take the number 672.
6 is at hundreds place, so its place value is 6 × 100 = 600
7 is at tens place, so its place value is 7 × 10 = 70
2 is at ones place, so its place value is 2 × 1 = 2

*The place value of 0 is always 0.

Face Value – The face value of a digit is the digit itself.

For example – Let us take the number 368.
The face value of 3 is 3.
The face value of 6 is 6.
The face value of 8 is 8.

Expanded Form - A numeral for a number can be written as a sum of place value of its digits. For example – Let us take the number 465.

465 = 400 + 60 + 5

OR

465 = 4 hundreds + 6 tens + 5 ones

EXERCISE

I. Write the place of the given digits -

(a) In 248, 2 is at hundreds place.
(b) In 639, 3 is at T place.
(c) In 950, 0 is at O place.
(d) In 801, 8 is at H place.

II. Write the numbers from the given place of digits -

(a) 5 is at hundreds place, 2 is at tens place and 4 is at ones place - 524
(b) 2 is at hundreds place, 7 is at tens place and 3 is at ones place - 273
(c) 9 is at hundreds place, 6 is at tens place and 1 is at ones place - 961
(d) 6 is at hundreds place, 0 is at tens place and 9 is at ones place - 609

III. Write the place value of the given digits -

(a) 7 in 279 is 70 (b) 4 in 483 is ____ (c) 9 in 259 is ____ (d) 0 in 306 is ____

IV. Write the numbers from the given place value of digits –

(a) Place value of 3 is 300, 4 is 40 and 7 is 7 - 347
(b) Place value of 7 is 700, 9 is 90 and 8 is 8 - _____
(c) Place value of 9 is 900, 2 is 20 and 6 is 6 - _____
(d) Place value of 2 is 200, 1 is 10 and 5 is 5 - _____

V. Write the face value of the given digits -

(a) 6 in 256 is 6 (b) 4 in 450 is ____ (c) 2 in 291 is ____ (d) 1 in 315 is ____

VI. Write the expanded form of the following numerals.

(a) 423 = 400 + 20 + 3 = 4 hundreds + 2 tens + 3 ones.
(b) 298 = _____ + ____ + ___ = ___ hundreds + ___ tens + ___ ones.
(c) 709 = _____ + ____ + ___ = ___ hundreds + ___ tens+ ___ ones.
(d) 873 = _____ + ____ + ___ = ___ hundreds + ___ tens+ ___ ones

TOPIC 2 : FORMING THE GREATEST AND SMALLEST NUMBER

(Instruction - Parents must make the child revise ascending and descending done in previous worksheet before starting with the topic.)

Let us take any three digits - 2, 5 and 8

For example 1)To make the **greatest** number, we arrange the given digits in descending order.

7[0 7 3]

We know that 8 is greater than 5 and 5 is greater than 2.

0 3 ~~7~~

Since, 8 > 5 > 2, so, the greatest number is 852.

320

For example 2) Similarly, to make the **smallest** number, we arrange the given digits in ascending order.

582

We know that 2 is smaller than 5 and 5 is smaller than 8.

Since, 2 < 5 < 8, so, the smallest number is 258.

*Note – If zero is one of the digits while forming the smallest number, it is written in place after the **highest** place.

For example 3) Let us take any three digits - 6, 0, 3.

On arranging the given digits in ascending order, we get 036.

A number cannot begin with 0. The smallest digit (other than zero) is 3.

So, the smallest number is 306.

EXERCISE

I. Make the greatest 3 – digit numbers. Repetition of any digit is not allowed.

	Digits	Greatest
(a).	7 , 4 , 9	947
(b).	0 , 2 , 3	________
(c).	2 , 8 , 6	________
(d).	4 , 0 , 1	________
(e).	1 , 7 , 9	________

II. Make the smallest 3 – digit numbers. Repetition of any digit is not allowed.

	Digits	Smallest
(a).	9 , 6 , 4	469
(b).	8 , 2, 6	________
(c).	O , 5 , 3	________
(d).	4 , 9 , 2	________
(e).	1 , 7 , 0	________

III. Make the greatest and smallest 3 – digit numbers. <u>Repetition of a digit is allowed.</u>

Digits	Greatest	Smallest
(a). 9 , 3 , 4	999	444
(b). 3 , 2, 6	632	236
(c). 7 , 0 , 3	730	307
(d). 5 , 8 , 2	852	258
(e). 1 , 5 , 0	510	105

REVISION

Q1. Write the number name for 921. nine hundred twenty-one

Q2. Write two numerals which come in between 899 and 902. 900 and 901.

Q3. Write the largest three digit number. 999

Q4. Take the number 895. Which digit is at hundreds place? Which digit is at tens place? Which digit is at ones place? 8, 9 and 5

Q5. Write the face value of digits for the number 675. 675.

Q6. Which number can be written in expanded form as 200 + 50 + 2? 252

Q7. Write the greatest and smallest three digit numbers that can be written using digits 7, 4 and 3 without repeating any digit. 743 and 347.

Q8. Write the number with 1 at hundreds place, 0 at tens place and 7 at ones place. 107

Q9. Arrange 209, 613, 926 and 897 in decreasing order. 926, 897, 613 and 209.

Q10. Arrange 213, 556, 435 and 340 in increasing order. 213, 340, 435 and 556

Q11. Count forward and fill in the blanks.

(a) 224, 225, 226, 227, 228

(b) 892, 893, 894, 895, 896, 897

Q12. Count backward and fill in the blanks.

(a) 559, 558, 557, 556, 555

(b) 999, 998, 997, 996, 995

---END---
