

Aanchal Kansal

Academic Trainer

As a dedicated trainer, I aim to expand my horizons in the field of education. I believe that one learns best while teaching or sharing knowledge because it is during those times that you receive counter questions, which keep your passion for learning alive. I am seeking an organization that will embrace my event management and coordination skills, along with my teaching abilities.

AdmitWise

Academic Trainer

As an academic trainer specializing in **Maths** and **Quantitative Aptitude** for **IBMPY, IGCSE, CUET** and **IPMAT** preparation. In addition to instructing students for these courses, I manage their **schedule, design exam-based assignments**, prepare and discuss detailed **analysis of mock tests** and coordinate **updates with parents**, as our firm offers personalized education. I have been trained to provide both online and offline sessions.

Internship

Collzy

Faculty Intern

As a faculty intern specializing in **math** and **Quantitative Aptitude**, I trained students for **CUET** preparation. I took their **individual doubt sessions** as our firm offers personalized education. I have been trained to provide both online and offline sessions.

Bhumi NGO

Intern

Designed posters for fundraising for different events. Raised fund for **Rs. 10000** during my internship period. Also, supported underprivileged children with clothes and food.

Sankalp NGO

Teaching Intern

As a teaching intern I taught underprivileged children. Provided them with basic stationary for school. Persuaded parents to send their children to our NGO to study.

Academic Projects

Particle Swarm Optimization and its Applications

Guide : Dr. Rajini Goyal (24 Dec'20 - 17 March 21)

Collected information about the particle swarm optimization. Also investigated how it is used in networking and signal processing.

Application of Graph Theory

Guide : Dr. Sunil Hans (20 April 20- 16 May 2020)

Discovered the various real life applications of graph theory. Examined how graph theory is used in navigation system.
