

TIME

By Aanchal Kansal

www.vaagaacademy.com

In math, time can be defined as the ongoing and continuous sequence of events that occur in succession, from the past through the present to the future.

A clock is a circular device provided with three hands: an hour hand, minute and second hand.

Clock shows three hands

We use A. M. to show that it is between midnight and noon. We use P. M. to show that it is between noon and midnight.

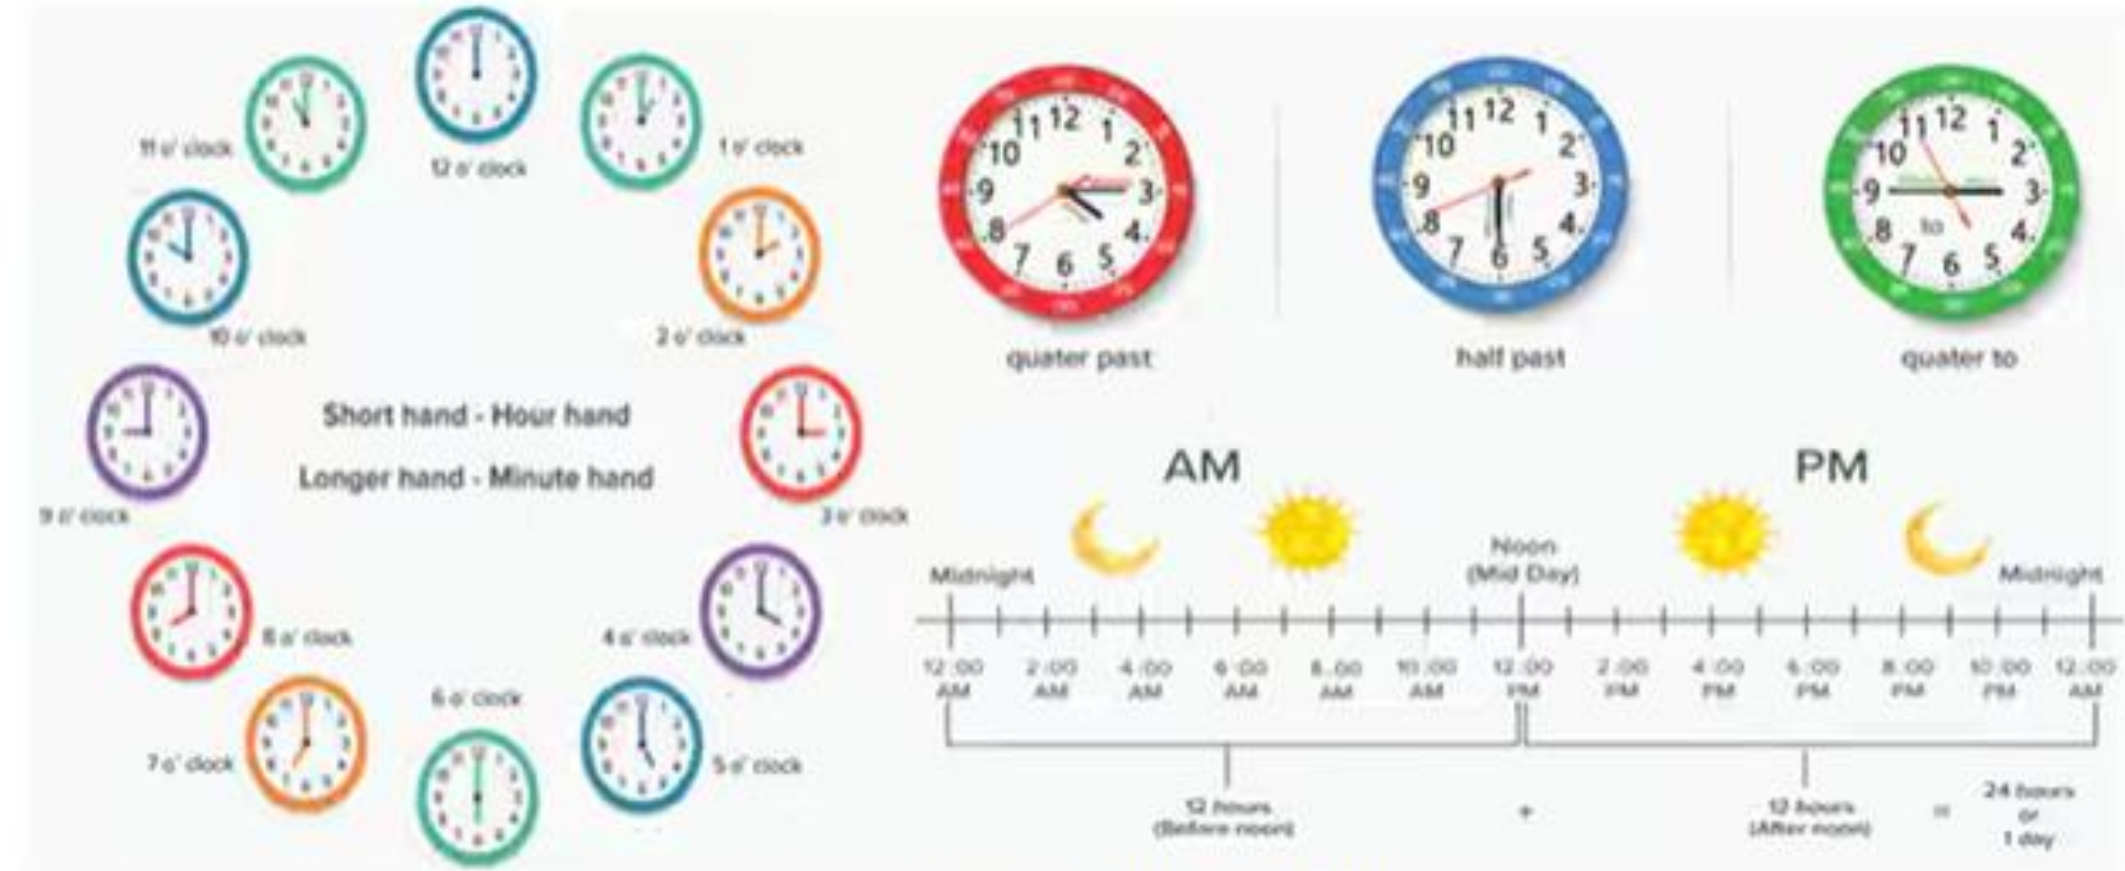

Image shows time about AM and PM
